

Comfort Bundles for The National Center for Children and Families' Greentree Shelter

NCCF's Greentree Shelter, the largest full service shelter in Montgomery County, often welcomes women and children into the shelter, coming directly from transitional or unsafe situations with minimal possessions. Many times they are lacking the most basic supplies. With the aim of helping these families transition into more safe and stable lives, we hope to welcome them with a Comfort Bundle - all the essentials that they often cannot carry with them - to ensure their comfort in their new temporary home. Please consider contributing either individual items or building a whole Comfort Bundle with your friends/ family.
